

DINE-AMICS P.O.S.

2-Touchscreen Expandable Starter System **\$6995.**

Does not require a dedicated Server.

Add one from us including on-site support, or supply your own.

\$6995 Includes Hardware, Software, Setup, & Training. We fully pre-load your menu, items, prices, and program your Touchscreens. You have support options of 3-year Manufacturer or On-site for your choice of components.

Server not included in \$6995.
Supply your own,
Get one from us,
Or run without. Touch #1 acts as
the Server.

[Please call for any size system configuration.](#) Every system is tailored to your exact needs. You never "over-buy".

SETUP, TRAINING & SUPPORT

DINE-AMICS provides a complete system including all hardware, software, setup, training & SUPPORT.

When you need help, we get Live on your system and can "see" the exact same Touchscreen the caller is calling about. Usually, they're just not pushing the right button, but that's OK! Support is support. We guide them through the correct process. In the event a change or fix is required, we literally get right on that Touchscreen and can make the changes. We don't have to send CD's or floppies to load. We are working right on your system.

Need something special?

Everyone does. And it's not a problem. Dine-amics is the source of the code. We wrote the programs and we support them. We can make changes to the POS program to make it operate the way you need it. Sometimes users come up with really good ideas and they'll become part of the standard system.

All of our programmers and support people are on our internal staff. Nothing is sourced out. You will talk to the same support people over the life of your system. We even keep an original support copy of your system's menu detail.

Hardware comes with Three-Year Warranties. Server's come Standard with On-site Parts & Labor (choice of levels).

On-site Support for Touchscreens Printers, and Cash Drawers is your option. We don't force it on you.

[DELL TOUCHSCREEN OPTION OFFERS ON-SITE TOUCHSCREEN SUPPORT. ASK US ABOUT IT. VARIOUS OPTIONS AVAILABLE TO SUIT YOUR NEEDS.](#)

ELO "MERCURY". 15" All-in-One.

The Mercury is a 15" low-power Intel Celeron or Pentium M POS Touch Terminal made specifically with premium space in mind. The Mercury boast super quiet, running with one temperature controlled fan that runs when the unit needs to dissipate heat. Also, easy access to most components with a built-in speaker and plenty of optional tools; such as magnetic strip reader, integrated customer display, and an internal CD-ROM make this system very versatile.

The Printers:

The TSP600 is the ultimate value in thermal receipt printing. This high speed, low cost direct thermal printer offers many of the features found in more expensive printers. Full graphics and barcode printing support is standard. Two-color thermal printing support is also included.

The TSP600 also features recessed cable connections to keep dirt and debris away from the sensitive connection ports. These recessed connections also greatly reduce the risk of cables being tampered with or accidentally unplugged.

Available in both tear bar and auto cutter models, there's a TSP600 fitted to nearly any application for a direct thermal printer.

"Drop-in & Print" paper loading means more time spent printing; less time spent fiddling with difficult to load printers.

STAR MICRONICS
 16 line-per-second
 Thermal Printers

Black option

STAR MICRONICS
 Dot-Matrix High-impact
 Remote Order Printer

Star Micronics America, Inc. warrants this product against defects in materials and workmanship with a warranty coverage **THREE YEARS FOR PARTS AND ONE YEAR FOR LABOR** from the original date of purchase. The warranty coverage for autocutter assemblies and print heads is one year parts and labor. This warranty shall apply only if the product fails to function properly under normal use.

The Basics:

HOW EASY IS IT TO MAKE CHANGES?

In Manager Mode touch the spot you want to change. Choose changes from a drop down Window.

WE SET UP YOUR ENTIRE SYSTEM

Send us your menu. We pre-load all items, prices, lists and modifiers. We pre-program your screens. When you get it it works "out-of-the-box"!

HOW DO I GET SUPPORT?

Call us. We get right on your system and see the same Touchscreen the caller is calling about.

CAN I ACCESS IT FROM HOME?

Complete access for the owners anytime night or day. Get right on the system and see or do anything just as if you were right there. Watch the registers operate Live!

QUICKBOOKS INTERFACE

Is included. Dine-amics automatically collects & organizes all postings and transfers to your Quickbooks.

DOES IT PROCESS CREDIT CARDS & GIFT CARDS?

Credit Cards and Gift Cards can be swiped at any screen. Also handles frequent Diner, All Campus Cards, ID badges, Manager Cards.

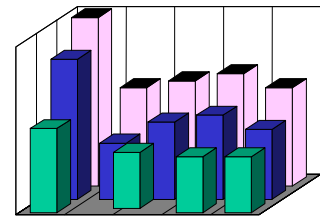

KEEPS TRACK OF EVERYTHING!

Every Item, modifier, drink, add-on, void, comp, discount, etc. Collect for Everything sold! Helps Eliminate human error in taxes, tips, etc.

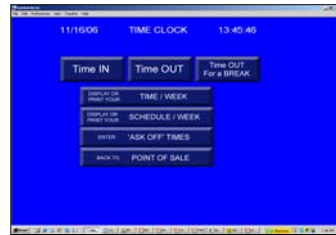

MENU ITEM COUNTDOWN

An computerized chalkboard, if you will. Tells Servers what's left BEFORE you run out.

TIMECLOCK INCLUDED

Press Timeclock button from any screen. Punch in/out, print your own timecard and schedule. Tips declared on punch-out.

PRINT ORDERS TO THE KITCHEN

Print orders to a printer(s) or to a Kitchen Monitor with a bump bar, or both. No limits. Item separation and timing options.

BACK-OFFICE OPTIONS.

Nothing is forced on you. Our Back-office comes as Integrated Modules so you can expand if & when you want to.

- RECIPE WRITING
- INVENTORY RE-ORDER
- LABOR SCHEDULING
- GENERAL LEDGER
- ACCOUNTS PAYABLE
- ACCOUNTS RECEIVABLE
- PAYROLL

TABLE MAP INCLUDED

Setup multiple rooms. Hostess and/or Server access. Tables change colors as designated steps take place. Built-in sales, turnover, and availability.

These are just the basics. The best way to see the system is to see a live demonstration. Please call us at 1-800-331-1129 to arrange one at your convenience.
